

Structured Reporting from CXRs

- Structure in the form of **triplet** \rightarrow {observation, [location, sub-location]}
- **Classification**-based localization

Quantitative Evaluation

- Evaluation metrics: **multi-label** classification → precision, recall, F1-score w.r.t. **triplets**
- Baseline:

- Results:

Method	Precision	Recall	F1-score
Baseline	0.12	0.19	0.15
Ours	0.28	0.34	0.30
